Valentine’s Day is all about expressing love for each other—why not express love for Planet Earth at the same time? These eco-friendly greeting cards are made in the USA from sustainably harvested birch wood by an “Owla-

bama” handmade letterpress company that gets their inspiration from nature. They also make lovely cards from 100-percent cotton paper. The “BFF” card (\$3) is perfect for a girlfriend gifts display, and the “Hugs & Kisses” card (\$3.25) is “totes adorbs”!
